

Sage's Grow Chart

Coins in the GROW jar stay in. Each month they earn a bonus, and the bonus earns a bonus too.

You'll need your **GROW jar**. This printable works with **The Four Jars**, our free system for splitting money into Save, Spend, Give and Grow. Don't have it yet? Get it free at kidzlense.com

How the GROW jar grows

Coins in the GROW jar stay in. Once a month a grown-up adds a **Sage bonus**: 1 extra coin for every 10 coins already in the jar. Leave the bonus in too, and next month's bonus can be bigger.

Example: **20 coins** + bonus 2 = **22 coins** · next month: 22 + bonus 2 = **24 coins**

Grown-ups: this is how interest works, and why money left alone grows. Round down at first (14 coins earn a bonus of 1). Older kids can use real pocket money and work out 10% themselves.
